LINK –
A MODULAR TABLE COLLECITION

Designed by Hans Thyge & Co, Link is a flexible and multi- functional table collection. Link is FSC®-certified and produced with a focus on sustainable forestry and environmental considerations. Its composed of a large series of modules which gives you the freedom to customize and create your conference table or workstation your way. Link has an airy and elegant expression, which is emphasized by the simple leg construction that visually causes the
linoleum tabletop to hover over the slightly sloped legs.

The solid wood base adds warmth and beauty to the room and contributes to a comfortable working environment. The rails of the base allow you to combine different sizes, and at each table end you can add accessories such as drawers, standing desks or metal trays. Integrated cable management is also available.

PRODUCT HIGHLIGHTS

- Large range of modules
- User-friendly linking system
- Solid wooden beam and legs
- Linoleum table top in various colors

lacquered matt

CLEANING

The Forbo linoleum table top is easy to clean and maintain.

Daily cleaning:
Clean with a damp cloth. Can also be cleaned with a mild mixture of soap and water.

Thorough cleaning:
Use a mixture of water and natural soap or Monel to maintain a resistant surface.

See the cleaning instructions from Forbo Linoleum here.

All wooden parts can gently be cleaned with a damp cloth.

ENVIRONMENT

All wooden parts are made of FSC certified wood.

Forbo linoleum is a natural product that includes linseed oil, resin, lime, cork and stone and
wood flour, with added colour pigments. Forbo linoleum is produced CO2-neutral and is a sustainable choice.
