QUALITY MEETS DESIGN

PURE

Design: Thore Lassen

PURE CHAIR COLLECTION

With its original design characterized by intuitive and optimum exploitation of the sculptural properties of the pur material, the Pure chair not only offers a carefully developed ergonomic design and functionality, but also an exclusivity not normally seen in this segment.

The pleasantly soft and silky surface on the seat and the back, combined with the inspiring colour choices, transforms the chair into something extraordinary – both in terms of comfort and visual appearance.

“The seat’s carefully selected pattern is not only an aesthetic characteristic, it actually has a functional purpose. It protects the seat of the chair so it doesn’t get any dents, and it also makes the chair more stable when stacked”. Thore Lassen, architect

PRODUCT HIGHLIGHTS

- Offers perfect ergonomics
- Soft-touch surface
- Contributes to good room acoustics
- The glides have a sound absorbing effect
- Chairs can easily be linked in rows
- Pure can stack 12 high
- Seat and back available in 7 colors
- Chair suspension possible
- Easy to clean, withstands disinfection
- Extremely robust
- Solution-dyed pur - long lasting colours
- Danish design produced in Denmark
- Passed L2 test (extreme use)

PB1176	Pure bar chair	4 pcs. on the floor	74/58/150
PT1074	Pure stool	10 pcs. on the floor	58/58/103

CLEANING AND DISINFECTION

Everyday cleaning: Wipe the chair with a clean damp cloth. If the chair is dirty, dip a cloth in soapy water, wring it out and wipe the chair.

Thorough cleaning: When a more thorough cleaning is required we recommend the white sponge from Miraclean. Just dip the sponge in cold water and carefully rub the mark away.

Disinfection: The pur material can withstand disinfection and you can use ethanol-based disinfectants when cleaning the chair. You can also use Virkon from Dupont.

ENVIRONMENT

Due to the strong pur material, Pure has a long life time.

Pure has a classic design that can be used in many different surroundings.

TEST/CERTIFICATES

L2 (Extreme use)

EN 16139:2013 (Furniture - strength, durability and safety - Requirements for non domestic seating)

Approved for 200 kg. on seat and 70 kg. on back
