DRY CHAIR COLLECTION

Designed for the contract market, Dry is an elegant chair with excellent seating comfort. The secret of its high comfort lies in the flexible polyurethane (pur) shell.

The straight and flat looking shell surprisingly adapts to the shape of the body providing support and comfort. Its soft-touch surface also contributes to good room acoustics and Drys minimalistic expression can easily match any architectural surroundings. The shell in its final form is carefully hand finished by talented craftsmen.

"The aesthetic appearance of Dry is like a folded piece of paper, stringent, simple and geometric. It's functional and adapts to the shape of the body when seated".

Boris Berlin, architect, Komplot Design.

PRODUCT HIGHLIGHTS

- Design Award Gold winner 2020
- Adapts to the shape of the body
- Providing both support and comfort
- Contributes to good room acoustics
- Soft-touch surface due to the pur material
- The pur material provides the same warmth as an upholstered seat
- Durable and versatile
- Chairs can easily be linked in rows
- Armchair can be hung on table top
- Can stack up to 15 chairs
- Chair suspension possible
- Seat available in 7 colors
- Easy to clean, withstands disinfection
- Passed L2 test (extreme use)

Linking device of black nylon (underneath the shell)

Linking device chrome/satin chrome (integrated in the sled frame)

Dry trolley: Capacity 20 chairs

Felt glides

STACKING

Dry can max stack 15 on the floor.

Below some examples.

Item no.	Model		Dimensions (L/W/H, cm)
D1000	Dry chair	10 pcs. on the floor	75/52/105
D1000	Dry chair	15 pcs. on the floor	85/52/119
D1050	Dry armchair	10 pcs. on the floor	75/57/105
D1050	Dry armchair	15 pcs. on the floor	85/57/119
Dry trolley	Dry chair + armchair	20 pcs. on trolley	127/52/133

CLEANING AND DISINFECTION

Everyday cleaning: Wipe the chair with a clean damp cloth.
If the chair is dirty, dip a cloth in soapy water, wring it out and wipe the chair.

Thorough cleaning: When a more thorough cleaning is required we recommend the white sponge from Miraclean.
Just dip the sponge in cold water and carefully rub the mark away.

Disinfection: The chair can be disinfected and you can use ethanol-based disinfectants when cleaning the chair. Rely-on Virkon is also possible.

ENVIRONMENT

Due to the strong pur material, Dry has a long life time.
All steel parts are made from 40-50% reused steel.

Dry has a classic design that can be used in any surroundings.

TEST/CERTIFICATES

L2 (Extreme use)

EN 16139:2013 (Furniture - strength, durability and safety - Requirements for non domestic seating)

Approved for 200 kg. on seat and 70 kg. on back

AWARDS
